ARTICLES

M. R. Veldanda and M. U. Hosain Behaviour of perfobond rib shear connectors: push-out tests 1

Michel Bruneau and Stephen A. Mahin Inelastic seismic torsional response of simple symmetric structures 11

Nemkumar Banthia Pitch-based carbon fiber reinforced cements: structure, performance, applications, and research needs 26

Aaron S. Dinovitzer Optimization of cold formed steel C-sections using standard Can/CSA-S136-M89 39

S. O. Denis Russell Estimating flows from limited data 51

Donald A. Taylor Snow on two-level flat roofs — measured vs. 1990 NBC loads 59

A. Chabert et A. Picard Câbles à base de fibres pour la précontrainte 68

S. Robert, D. Piotte, J.-C. Rassam, R. Boivin, R. Larivière, and R. Hausser Study of the hydraulic regime of the St. Lawrence River between Montreal and the city of Québec 78

A. R. Kemp Applications of research on ductility of structures 86

J. D. Dolan and B. Madsen Monotonic and cyclic nail connection tests 97

M. G. Ferrick, P. B. Weyrick, and S. T. Hunnewell Analysis of river ice motion near a breaking front 105

A. Ghobarah and T. Baumber Seismic response and retrofit of industrial brick masonry chimneys 117

Peter Chang and Leonhard Bernold Multi-objective process optimization for construction 129

Paul J. Pilon and K. Adamowski The value of regional information to flood frequency analysis using the method of L-moments 137

R. A. Sanni, D. Surry, and A. G. Davenport Wind loading on intermediate height buildings 148

M. C. Ircha The Chignecto ship railway: a 19th century engineering innovation 164

NOTES

Richard Redwood Anchor bolt forces for moment-resisting column bases 178

Zolt Zrinji and Donald H. Burn Application of Kriging to surface water level estimation 181

D. B. Van Dyer Strength and efficiency of braced timber columns 186

DISCUSSIONS

J. Sepp Design of crane runway girders for top running and underrunning cranes and monorails: Discussion 190

Carl Goldman Design of crane runway girders for top running and underrunning cranes and monorails: Reply 191

J. M. Cruden Establishing derailment profiles by position for corridor shipments of dangerous goods: Discussion 191

F. F. Saccomanno and S. M. El-Hage Establishing derailment profiles by position for corridor shipments of dangerous goods: Reply 194

BOOK REVIEWS / CRITIQUES DE LIVRES

Jean-Guy Beliveau Introduction to finite element vibration analysis 196
